

ELIUTH MISRAIM ROJAS VILLAVICENCIO

C h e m i c a l E n g i n e e r .

OBJETIVE

To secure an engineering position at Fastenal where I can utilize my technical expertise and problem-solving skills to contribute to the company's growth and success. My goal is to apply my experience in engineering design, project management, and continuous improvement to drive efficiency, innovation, and quality in Fastenal's operations. I am committed to delivering high-quality work, collaborating with team members, and continuously learning and further developing my skills and advancing my career in the engineering field.

EXPERIENCE

Product Handling.

Fastenal Distribution Center NL 100, General Escobedo.

March 2022 – Actual.

- Managed the receipt, storage and distribution of products, ensuring the accuracy and efficiency of all inventory transactions.
- Teamwork to identify process improvements and implement solutions that optimized the flow of materials and minimized times and movements by 88%.
- Development and implementation of Reports to increase storage capacity by 80% and completely eliminate discrepancies in locations, maintaining constant monitoring of transactions.
- Implementation of Indicators (KPI) that measure product movements, inventory adjustments, and process efficiencies, which resulted in a 73% improvement in material distribution as well as increasing the focus, direction, and performance of the department.
- Design and development of interactive Dashboards in Power BI to present Data Analysis and Performance Indicators.

Sorting Picking & Shipping.

Fastenal Distribution Center NL 100, General Escobedo.

August 2020 – February 2022.

- Monitor the completeness and accuracy of the draw of all products leaving the warehouse.
- Investigate and resolve inventory discrepancies.
- Organize and correctly distribute the products within the warehouse to optimize shipping times.
- Management of Systems, Applications and Products for Data Processing (SAP) to control lottery and shipment of products.
